GUIDELINES FOR USE OF
SHOREHAM VILLAGE BASKETBALL COURT
November 10, 2015

Permitted Uses:	Basketball, ice skating (and hockey), in-line skating (and hockey) and pickleball
Permitted Hours of Use:	9AM — 9PM
Permitted Seasons:	Basketball — All year Ice Skating — Per Mother Nature In-line Skating — About November 1 through about March 31
Organized Use:	As permitted by the Village Board
Ice and In-Line Skating Requirements:	(1) On or about November 1 or each year, David and volunteers will install boards on the perimeter of the basketball court, arched in each corner; the boards will be about 42" high (with no net above); goals will be installed on the north and south ends of the court such that the faces thereof shall be in line with the perimeter of the court, so as to establish the opportunity for the court to be used as a basketball court and rollerblading rink. Two gates will be part of the installation (probably on the west side of the rink). (2) On or about April 1, David et al will dismantle the above and store same off-site. (3) Rollerblades will have wide, soft rollers (nomenclature?) to minimize damage to the court. Such damage (and any damage from hockey sticks) will likely only entail scuff marks. Any such damage will be repaired at the end of the season. General maintenance of the boards and goals will also be effected during and after the season.
Cost to Village:	David said the above would be provided without charge to the Village (thank you David).
Trial Period:	If all goes well during the first year of the program, we'll continue same into the future.
