## SHOREHAM LONG ISLAND

**LOCATION** This beautiful summer residence district is situated on the north shore of Long Island, a short distance beyond Port Jefferson. It is just far enough from New York to escape holiday crowds and other unpleasant features of summer districts too close to the city, and yet it is not too far for easy train service and comfortable automobile travel. Most of the neighborhoods which possess the exclusive charm and summer advantages of Shoreham are much farther away from the city.

Its location is ideal. From a commanding plateau, it overlooks Long Island Sound at its widest point. This wooded plateau slopes gently to a beautiful white sand bathing beach where the water is as clean and clear as crystal; in fact, there is no more beautiful bathing beach anywhere in the East. Anyone interested in boating and water sports would at once be enthusiastic about Shoreham.

A charming well wooded park extends back from the beach, and is beautifully developed with winding roads, and studded with attractive, modern country homes of all sizes and types, which makes an instant appeal to people of refined taste and love of the outdoors at its best.

**SOME OF SHOREHAM'S MANY ADVANTAGES** Shoreham combines in a unique degree every advantage of the seashore and mountain resorts. From its high location, it is swept by cooling breezes, and the temperature both in Summer and Winter is moderated by its nearness to the water.

The soil in districts of this sort is usually very poor, but at Shoreham the soil is exceptionally good and makes it easy to have beautiful lawns, excellent gardens and shrubbery. The fine trees make a charming park effect.

The north shore of Long Island is famous for the fine estates and summer homes of New York's best families. This district is well provided with golf and country clubs, tennis clubs, yachting clubs, hunting clubs, and other outdoor advantages.

One of the special advantages of the park at Shoreham is the water supply which is obtained from a deep well artesian system, and is supplied by pipes to the various homes and estates at small cost. For a country place, this advantage is exceptional.

There is an attractive little village with stores, which insures prompt deliveries of household necessities. Churches and schools are also within easy reach. There is an inn, which is opened the year around, and is a convenient and attractive feature of the neighborhood.

With all of its advantages, the acreage at Shoreham is offered at very reasonable prices. The various building sites range in size from two acres upward. Every owner of property has beach rights, which everyone knows are exceptionally valuable rights on the north shore of Long Island.

The homes which are offered for sale at the present writing range in size from ten rooms and two baths to fifteen rooms and four baths, and are situated on plots of ground from two acres upward. The prices of these estates range from \$13,000 upward.

We will be very glad to arrange a trip of inspection to Shoreham at any time. Our representative will be glad to point out and describe in detail every item of interest.
