Vol. XI

SHOREHAM, N. Y.

No. 2

Tomorrow afternoon on the Water's lawn from three to six P.M. the Shoreham Garden Club will hold the long awaited Garden Party complete with entertainment, special features and a fashion show. This fashion show which will follow the entertainment is being staged by Mrs. Murray of Murray Modes, Port Jefferson. She will show about fifty very smart summer and fall outfits, which will be modeled by the young ladies of Shoreham. A few of these will be auctioned off and the others will be held for sale, but none can be duplicated.

The entertainment will start at four o'clock. It will be comprised of an original dance by Miss Mamre Finck and a very special performance of the famous Shoreham Flora Dora Sextet. **DON'T MISS IT!!**

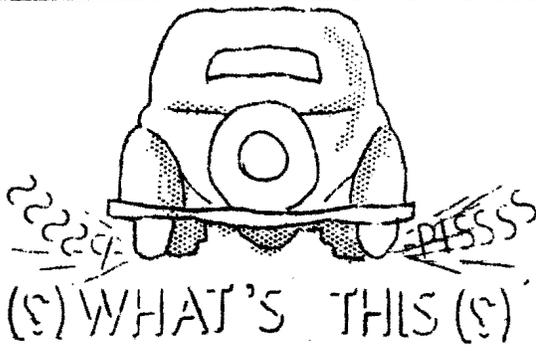

In the special features department we have Senorita Juanita, the Gypsy Fortune Teller who will

SAT. NIGHT SHINDIG(?)

So came the third of the series of Saturday night get-togethers. It was a cool comfortable evening and as usual a happy, fun-loving and humorous crowd attended. All of Shoreham's youngsters from the ages of twelve to fifteen came and stayed until ten-thirty or so, at which time droves of mamas and papas arrived to tote off their respective younguns. Unfortunately our orchestra was rather hampered because the drums were out of order, and another man in the orchestra simple was not there. However the four peices that did play were very good, and nobody seemed to mind as long as the music was fairly rythmic and able to be heard.

The highlights of the evenings entertainment were all very skillfully done. The first number for which children were allowed to re-

What car which was parked where had what done to it by whom, and why? (Do you know, well, we do, Ha, Ha, Ha)

KIDDIES DANCE

The Wednesday Evening Kiddies Dance was ably conducted by Miss Anne Waters and Mrs. Sterling Palm. Various games, the Mat Dance, the Balloon Dance and the Lemon Dance were played and enjoyed by all. Miss Jantzer held her dancing classes as usual and the Juniors met at 7:30 to 8:30, whereupon the Seniors met for their class, which starts at 9:00 and ends at 10:00.

read tea leaves. Children will be amused by a fish pool and special children's games.

In the sales department we have cakes baked by the members of the community and lovely potted plants. Mrs. Murray has donated a beautiful house coat which will be raffled off. The admission price of seventy-five cents will include refreshments. Mint Juleps will be on sale as usual.

Prizes were awarded to the winners of the various games and ice-cream was served making a most enjoyable evening for the youngsters.

BUFFET SUPPER //

Last Saturday evening the younger set of Shoreham were entertained by Miss Georgette Saltzman's buffet supper. The party started promptly at seven o'clock and a full course chicken dinner with all the trimmings was served at seven-thirty. We must congratulate the cooks for it certainly was an excellent dinner and everyone enjoyed it immensely.

At nine o'clock the children adjoined at the club for their hour of dancing.

destroy the unpleasant odors emanating from strong smelling plants of this type.

Charcoal tablets, yes, the kind you use for indigestion are useful for purifying water in which cut flowers are placed. These tablets are also useful for plants which grow in water and are attractive in the house in the winter. Two or three tablets dropped in the container after the water has been added will do wonders. Do not agitate the water, as the tablets discolor it; left alone, they will remain in mass at the bottom on the sand which I always use to help gain a root-hold.

The most important item to remember when using boiling water is to protect the flowers and foliage from the rising steam by wrapping them in paper. About six inches of the stem should be exposed. The water should be about three inches deep and the stem should be dipped for about three minutes, if the flowers are of the soft stem type. Then they are placed in cold water in a deep receptacle and left for a few hours. Stems of a woody type can be left until the water is cool when they can be placed in arrangement. Broken ice is excellent for arrangements in warm weather.

SAT. NIGHT DANCE

main, because one of their set, Miss Mamre Finck had agreed to dance a Conga Routine. As it stood, Mamre did sway to her Conga rythm and was aplauded until she did a short encore of a few measures or so. Then came a short skit by three professionals? from no one knows where!, but anyway Bud Eichacker, Albert Breitung and Mamre Finck enacted a certain Paul Revere's Ride. Next, Bunny Beatty, Bob Oliver and Eddie Barnhart performed an amazing feat of mind reading. Yippee!, what stimulating entertainment???

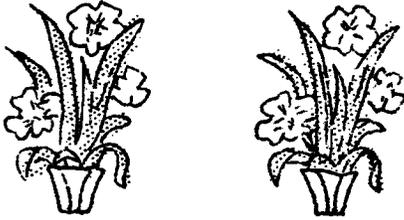

Again the dance was a big success in every way. Various bottles of soothing liquids were poured down many a throat, and everyone seemed quite contented and happy, to say the least. About three A. M. or so the club-house was finally emptied. Such fun. Now for a repitition this coming week.

NOTICE!!!!

NEXT SATURDAY EVENING,
INSTEAD OF THE USUAL
SATURDAY NIGHT DANCE
THERE WILL BE A COM-
BINED BEACH PARTY &
CLAM BAKE!!!!

HORTICULTURE //

LONGER LIFE FOR CUT FLOWERS Florence Faitoute

Vines, such as grape Ivy respond well if placed in a solution of one teaspoon full of vinegar to a pint of hot water, left for five minutes, then put in cold water.

Gil of Peppermint is another remedy for keeping cut flowers fresh. Keep an inch of this aromatic oil in a cylindrical bottle, stems of almost any cut flowers left if it for a half a minute then placed immediately in cold water for an hour will stay fresh for a long period. It is the most generally used cut flower preservative and is the answer to the prayer of flower lovers. Do not use it on flowers that come from bulbs.

Clorax is useful in combating the accumulation of bacteria caused by decomposition of foliage. One teaspoon full to a gallon of water.

Grain alcohol adds to the life of cut sprays of wisteria and other vines of this type. The stem should be dipped in it and held over a lighted candle until well charred before being placed in cold water.

Denatured alcohol is a life preserver for most soft stemmed flowers, one teaspoon full to a quart of water will
